WARNING

This document contains information affecting the national security of the United States within the meaning of the espionage laws U. S. Code Title 18, Sections 793 and 794. The law prohibits its transmission or the revelation of its contents in any manner to an unauthorized person, as well as its use in any manner prejudicial to the safety or interest of the United States or for the benefit of any foreign government to the detriment of the United States. It is to be seen only by personnel especially indoctrinated and authorized to receive information in the designated control channels. Its security must be maintained in accordance with regulations pertaining to TALENT-KEYHOLE Control System.

TOP SECRET RUFF

PREFACE

This report is one in a series on Soviet Ground Force and Logistic installations being prepared for a DIA/CIA Panel. The series is being coordinated, published and disseminated by NPIC. The photographic analysis is being performed by the NPIC Photographic Analysis Group, the CIA Photographic Intelligence Division (NPIC), and the Production Center 1P1a (DIA). The photographic analysis for this particular report was performed by the Production Center 1P1a.

In the interest of uniformity, the titles and letter designators for the facilities observed at these installations are identical with those appearing in the project requirement. When a specific facility is not observed both its title and letter designator are omitted in the report.

Titles and letter designators for the various facilities are as follows: (A) railroad service, (B) road service, (C) landing strips, (D) administrative and troop housing areas, (E) storage areas, (F) ammunition storage areas, (G) POL storage areas, (H) other buildings and facilities, (J) equipment storage/maintenance areas, (K) athletic fields, (L) small arms firing ranges, (M) driver training areas, (N) tank/assault gun firing ranges, (P) flat trajectory firing ranges, (Q) artillery emplacements (batteries), (R) infantry or combined arms field training areas or courses, (S) special training facilities, (T) unidentified facilities or tracking activity.

SUMMARY

Luga Artillery Training Area and Camp occupies approximately 60 square miles on the western outskirts of Luga (Figure 1). Luga Barracks and Artillery Training Area [REDACTED] adjoins it on the east; Luga Army Barracks SSE [REDACTED] is approximately 2 kilometers (km) east; and Luga Army Barracks South [REDACTED] is approximately 4 km southwest.

The facility consists of 2 general areas

for combined-arms training, 2 probable support areas, and a possible administration/support area (Figure 2). Extensive tracking, trenching, and weapons emplacements are evident.

[REDACTED] KEYHOLE missions of fair quality photography covered the area between [REDACTED]

[REDACTED] Comparative analysis of the KEYHOLE photography with a [REDACTED] mission shows only minor changes and a relatively

constant level of activity.

DESCRIPTION OF INSTALLATION

Railroad Service

Spurs entering the installation through Luga Barracks and Artillery Training Area and through the support area at the northeastern edge of the facility connect the facility with the double-track north-south railroad. Trackside loading docks of undetermined dimensions are present in both areas.

Road Service

Luga streets connect the installation with a primary north-south road.

Aircraft Landing Strip

Luga SE Airfield [REDACTED] is located approximately 12 km southeast.

Administration and Troop Housing Areas

Administration and housing facilities are located within Luga Barracks and Artillery Training Area.

Other Buildings

Area H1 contains 13 possible administration/support buildings.

Area H2, a probable support/storage area, contains 5 possible storage buildings and nu-

merous smaller buildings.

Area H3, a probable support/storage area, contains approximately 19 buildings.

Athletic Field

Area K is a soccer field with an oval track.

Small-Arms Firing Ranges

Area L1 is an 800- by 250-foot possible small-arms firing range.

Area L2 is an 850- by 120-foot small-arms firing range.

Infantry or Combined-Arms Field-Training Areas

Area R1 is a combined-arms field-training area. Wheeled/tracked-vehicle activity, trenching, and numerous artillery emplacement scars are apparent throughout the area.

Area R2 is a field training area.
